3> reed.co.uk begins new recruitment drive

Jreed.co.uk has experienced significant growth throughout the past two years, with headcount growing four fold. A raft of new clients, alongside a significant investment in marketing and product development have helped the business to outgrow its West End premises. A move to a new, larger office in Central London will take place later this summer and will enable significant staff expansion.

6> Interested in trialling a new HR Reporting and Analytic tool?

Although HR professionals often collect a wealth of data, it invariably sits in a multitude of different systems and formats which are often hard to access let alone consolidate. Trying to do any kind of useful reporting or analysis can therefore be slow, laborious and often requires calling on internal IT resources or expensive consultants. To address this frustration, activ8 intelligence have designed a new HR reporting and analytics tool called HRintel..
